SARTHAK PRAVIN NANDRE

Computer Engineer | AI & ML | Data Analytics | Software Development

EDUCATION

Data & BI: Pandas, NumPy, Power BI, Tableau, DAX, Power Query, Data Cleaning, ETL

Pune Vidyarthi Griha's College of Engineering and SSDIOM, Nashik

- NASA Space Apps Challenge 2024 International Finalist

EXPERIENCE

Quality Lead | Ethara AI | February 2026 - Present

- Analyze AI/ML datasets using Python, Pandas, and NumPy for anomaly identification.

Data Science Intern | Devspace IT Solutions | August 2025 - January 2026

- Contributed to YOLO-based crop disease detection with data augmentation and validation.

Power BI & Dashboard Intern | Celebal Technologies | May 2025 - July 2025

- Built Power BI pool-code tracking dashboard, improving ERM tracking by 35%.

Data Analytics Intern | Infosys Springboard | February 2025 - April 2025

- Developed interactive Power BI and Tableau dashboards for sports and business metrics.

AI & ML: TensorFlow, scikit-learn, YOLO, GANs, Computer Vision, Model Evaluation

FEATURED PROJECTS

1. AI-Based Data Analyzer, Visualizer & Cleaning Tool [Python, Pandas, FastAPI]

- End-to-end automated dataset profiling, anomaly detection, and data cleaning pipeline.

2. AI-Based Generative Architectural Design [Deep Learning, GANs, CAD]

- Deep learning floor plan synthesis; filed academic research paper on generative design.

3. Crop Disease Detection System [Python, YOLO, Computer Vision]

- Computer vision inference pipeline reporting 98%+ test accuracy for crop pathology.

4. ArchitectAI [React, AI APIs] - Live: architectai-pied.vercel.app

KEY ACHIEVEMENTS

- Smart India Hackathon 2025 Grand Finale National Finalist

TECHNICAL SKILLS

Languages & Frameworks: Python, C++, SQL, JavaScript, TypeScript, FastAPI, React.js, Flask
